How to buy

If you wish to use WinRAR and RAR after the evaluation period of 40 days, you need to purchase its license via one of the regional dealers [listed above](#). You may also register on-line at www.rarlab.com.

Upon receipt of your registration fee you will receive a email containing a registration key file corresponding to a user namestring which you have chosen. Please specify a valid email address when registering, it will be used to send you a key file.

Registration email will also contain all necessary instructions, so just follow them. Below we provide a brief explanation of typical registration procedure, but instructions in the email are more up to date than this file and should have a higher precedence.

If you use WinRAR or RAR/DOS, you will need to copy the registration key file (rarreg.key) to WinRAR folder. By default it is "C:\Program Files\WinRAR", but it can be changed by a user when installing WinRAR.

If the key is archived, in a .rar file, please extract rarreg.key from the archive before copying it.

In case of RAR/Unix and RAR for OS X you should copy rarreg.key to your home directory or to one of the following directories: /etc, /usr/lib, /usr/local/lib, /usr/local/etc. You may rename it to .rarreg.key or .rarregkey, if you wish, but rarreg.key is also valid.

Now WinRAR, RAR for Unix, DOS and OS X use the same registration key format, so you can use the same key with current WinRAR and RAR versions for all mentioned platforms. It is not guaranteed for WinRAR and RAR versions not equal to version included to this distributive. For example, versions prior to 2.60 used different keys.

Please send your further questions about sales and licensing to salesxwin-rar.com (please remove all x). English, French, German, Spanish or Turkish please.
